

2014 AWAM IA Renewal Seminar #7 - JASC & ATA Codes

Understanding and knowing how to use aircraft reference materials is critical to aviation technicians. This presentation will cover how aircraft maintenance manuals are structured by reviewing the widely-used numbering scheme that is the industry wide standard for aircraft systems numbers. The Joint Aircraft Systems Code (JASC) table, which is a modification of the Air Transport Association (ATA) specifications will also be presented. This is a free event sponsored by the Association for Women in Aviation Maintenance (AWAM)

Directions: WAI Conference Exhibit Hall

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
